PROFESSIONAL SUMMARY

Developer with extensive experience specializing in MERN (MongoDB, Express.js, React.js, Node.js) stack development. Proven track record in developing robust web applications, implementing automated testing, and managing end-to-end software development lifecycles. Adept at enhancing user engagement, optimizing code quality, and fostering team collaboration in Agile environments.

WORK EXPERIENCE

- **Wipro Technologies** — On site- Bengaluru
  Project Engineer (Full-time) — *March 2023 - Present*
  - Architected and developed full-stack web applications using MERN stack, resulting in a 30% improvement in user experience and a 25% increase in site traffic
  - Implemented TypeScript for enhanced code quality, reducing bug-related issues by 40% and improving overall system reliability
  - Spearheaded the development of new features and enhancements, contributing to a 20% increase in user engagement and customer satisfaction
  - Managed complete software development lifecycle (SDLC) from concept to delivery, ensuring on-time project completion and adherence to quality standards
  - Conducted comprehensive code reviews, maintaining a code quality score of 95% and fostering best practices among team members
  - Implemented automated testing practices using Selenium, Java, and Maven, reducing debugging time by 25% and increasing overall product stability
- **Wipro Technologies** — Remote
  MERN Stack Intern — *Apr 2022 - Aug 2022*
  - Designed and implemented critical features for web applications using MERN stack technologies, contributing to a 15% increase in application functionality
  - Served as Scrum Master for a 2-week sprint, effectively managing a team of 15 individuals and achieving 100% of sprint goals
  - Collaborated in a fast-paced Agile environment to design and execute new features, consistently meeting project deadlines
  - Conducted thorough code reviews, ensuring 98% code quality adherence and promoting best practices within the development team

TECHNICAL SKILLS

- **Skills**: JavaScript, TypeScript, HTML5, CSS3, React.js, Node.js, Express.js, MongoDB, Redux, Tailwind CSS, Tanstack Query, JWT, REST APIs, Selenium, Jest, Playwright, Tricentis Tosca Commander, Git, GitHub, Webpack, Babel, Postman, Figma, RESTful APIs, Neovim, Linux, Agile, Scrum, SDLC

PERSONAL PROJECTS

- **Homs - Hotel Booking Web Application (homs-3q7s.onrender.com)**: Website that lets users search, book, and manage hotels with secure payment and dynamic content.Used JWT authentication, Stripe, and image upload features to enhance the website's security and functionality.
- **E-commerce Platform for Interior Decor (Internship Project)**: Engineered a robust e-commerce solution for interior decoration items using MERN stack architecture.Conducted thorough code reviews to ensure code quality and best practices.
- **Personal Portfolio Website (hemantkumbhar.com)**: Designed and developed a responsive, SEO-optimized portfolio website to showcase professional skills, projects, and technical blog posts.

CERTIFICATIONS

- MERN Stack Development (Wipro-Great Learning)
- React - The Complete Guide (Udemy)
- Advanced JavaScript Concepts (Udemy)
- Responsive Web Design (freeCodeCamp)
- User Experience (UX) Design Fundamentals (Google)

EDUCATION

- **Sanjay Ghodawat University** — Kolhapur, India
  Bachelor of Technology - Mechanical Engineering; GPA: 7.9/10.0 — *April 2019 - May 2022*
